sales@nativeseeding.com.au

Seed Catalogue February 2014

Seed order information:

- Our price list is GST inclusive.
- Payment by cheque or direct transfer only. Account name/payee: Native Seeds and Land Repair, BSB 704606 A/C number 200028902. **Include invoice number in REF**, and please email notification of transaction.
- Payment within 30 days of invoice date.
- Cost of postage and packaging is extra and will be added to your invoice. Ownership and responsibility passes to the buyer when goods are handed to the official carrier.
- All prices are quoted in Australian dollars and may be subject to change without notice. Terms of payment are within a calendar month of the date of the invoice.
- Our email address (sales@nativeseeding.com.au) can be used for enquiries or placing an order.
- Many species are available in large quantities.
- Some species available from several different provenances. Provenance information is supplied with all seed dispatched.
- Collection of seed from a specific provenance can be arranged if required.
- Species other than those listed may be available. For instance many rainforest species are available on request. Please inquire if you have specific requirements.
- Our seed list is divided into three categories: perishable, wetland plants, grasses and sedges and non-perishable. Perishable seed is generally from rainforest species and is collected fresh prior to dispatch. Orders must be placed before the month of availability indicated. Seasonal variation may alter harvest times. All non-perishable species are held in stock wherever possible.
- Scientific names are used to clearly identify the species. Common names can be looked up on a table at <http://www.anbg.gov.au/common.names/>
- Scarification of seed is available at \$5.50 per batch, under 1kg and \$5.50 per kg above.
- We do not export Australian Native Seed.
